What are the major issues and activities that should be considered by the CCCT Board and the League in the next two years? (Please use 50 words or less. Any portion of the statement beyond this limit will not be included.)
The CCCT/League should focus on expanding opportunities and access for all students thru DEIA. The current emphasis on student completion should not deter us from advocating non-traditional pathways to success. We should also work to strengthen our strategic partnerships to ensure adequate funding for student access and success.

How do you feel you can contribute in these areas? (Please use 50 words or less. Any portion of the statement beyond this limit will not be included.)
I have always worked to help California students achieve their goals no matter the venue. I have been successful in establishing relationships to help forge successful pathways via support programs, CTE and Industry partners, athletics, as well as Middle School-to-High School-to-Community College to-University/Career pipelines.

Educational leadership also requires being proactive in the political arena. Maintaining active partnerships with our leaders in Sacramento is very important. Continuing to work with the community colleges about issues surrounding COVID and virtual learning is necessary to maximize the students' ability to access educational success.

How do you feel you can contribute in these areas? (Please use 50 words or less. Any portion of the statement beyond this limit will not be included.)
Being knowledgeable about issues affecting community college students on and off campus is vital to having an effective and productive learning environment. How the students are affected by housing and food insecurity among the lack of other vital necessities are issues that should be presented to the legislature regularly.

Never missed a commencement, scholarship award ceremonies, student research poster presentations; honors ceremonies, lectures, in-service, and any event trustees are invited to. I like to joke that when I received my AA at Saddleback College with honors, as a member of Phi Theta Kappa, I was delighted to finally be able to shake my own hand at my commencement.

What are the major issues and activities that should be considered by the CCCT Board and the League in the next two years? (Please use 50 words or less. Any portion of the statement beyond this limit will not be included.)
Major issues include limited student engagement hands-on learning within the classroom and professor/educator execution methods.

Increasing student learning successfulness by bringing innovative and interactive classroom activities paired with soft skill education. We need sporadic in-person evaluations of the educators during classroom sessions to measure teaching/facilitating curriculum on higher levels.

How do you feel you can contribute in these areas? (Please use 50 words or less. Any portion of the statement beyond this limit will not be included.)
Make myself available to assist with developing innovative activities such as the Jigsaw technique, where students in small groups separate various topics of research while developing cooperative learning; inquiry-based learning, where students research in class, develop questions, and present; project-based learning which mimics real-life situations to develop greater soft skills.

We should focus on creating assistance for colleges that may not have the same resources due to economic or accessibility issues.
Some colleges also need assistance implementing much needed DEI initiatives, using the already successful frameworks from other districts.
We also need to inspire more community involvement at all levels.

What are the major issues and activities that should be considered by the CCCT Board and the League in the next two years? (Please use 50 words or less. Any portion of the statement beyond this limit will not be included."
Enrollments in colleges throughout our country are declining as a result of changing societal priorities. If we are going to justify future funding to keep our doors open, we must stay relevant and responsive to our communities needs.

How do you feel you can contribute in these areas? (Please use 50 words or less. Any portion of the statement beyond this limit will not be included."
I will promote good relationships between VVC and all local shareholders. I will be an ambassador for the vast network of community colleges throughout America that has impacted the lives of not only countless Americans, but also, students from around the globe seeking a more peaceful and prosperous future.
