

Our Plan to Build an Even Better Community College System

MEASURE

E

Measure E is a general obligation bond for the Los Rios Community College District that will appear on the March 3, 2020 ballot. If approved by over 55 percent of voters, **Measure E will authorize \$650 million of locally controlled funds to repair and upgrade educational facilities, classrooms and labs throughout the District.** The measure has been designed to extend, but not increase, current tax rates. The annual estimated tax rate is \$0.02 per \$100 of assessed valuation.

FACILITY NEEDS

The cost to attend California's public universities has risen to at least six times that of attending a community college. As a result, more students and their families are relying on their local community college to earn college credits, certifications, and job skills at a reasonable price, and then transfer to four-year universities.

Spread across five counties with over 1.5 million residents, Los Rios Community College District currently provides job training and college classes to approximately 75,000 students per year.

**1/3 OF OUR
FACILITIES ARE
40 YEARS
OLD OR OLDER**

All four Los Rios colleges recently went through a comprehensive facilities planning process, where more than \$1.3 billion in facility needs were identified. It prioritized the upgrades, improvements, modernizations, and new construction needed on each campus over the next decade to better prepare students for technical and other high demand fields and provide modern learning environments that align with changing educational and career needs.

PROJECTS AND OBJECTIVES

Measure E proposes improvements for every Los Rios college and education center in the District. If passed by voters, Measure E will:

- ▶ Better prepare students for high-paying jobs
- ▶ Improve classrooms and labs for careers in fields such as healthcare and early childhood education
- ▶ Upgrade classrooms and labs for science, technology, engineering, and math-related fields
- ▶ Improve resources for healthcare, nursing, dental hygiene, and other job-training programs
- ▶ Expand wildfire prevention, firefighting and construction training programs
- ▶ Improve educational resources for veterans

LOS RIOS BOND HISTORY

Los Rios Community College District's last general obligation bond was passed by voters more than a decade ago. All of its funds have either been spent or allocated to projects currently underway.

Every bond dollar spent by the District has been audited and reviewed by an independent oversight committee of local citizens.
